A+Click Math Problems and Logic Puzzles for Grade K-1 K-12

The concepts of logical form and argument are central to logic.. An argument is constructed by applying one of the forms of the different types of logical reasoning: deductive, inductive, and abductive. In deduction, the validity of an argument is determined solely by its logical form, not its content, whereas the soundness requires both validity and that all the given premises are actually true.

Logic - Wikipedia
