Elements of Government Contracting combines two previous books, Elements of Contract Formation and Elements of Contract Administration, to make one comprehensive resource. This convenient reference covers the entire procurement spectrum from the beginning of the process through claims and disputes in a straightforward, easy-to-read manner. The first part of this book explains the important elements and issues involved in the formation of government contracts, including the two primary methods of contracting. The next part addresses the factors critical to contract inception, performance and completion, and outlines the rules for contractors in the administration of a government contract. Fully updated, Elements of Government Contracting includes sample letters to contracting officers, as well as practical tips at the end of each chapter. In addition, it has an appendix on how to get a Multiple Award Schedule Contract and avoid pitfalls in performance.

The second edition of Government Contracting: Promises and Perils picks up where the first edition's mission left off: exposing fraud, incompetence, waste, and abuse (FIWA) and analyzing corruption, mismanagement, and ineptitude that defile government contracting. The first edition thoroughly outlined procurement throughout the contracting cycle including initial planning, contractor selection, contract administration, contract closeout, and auditing. This significantly revised new edition provides additional much-needed guidance on contracting documents, management tools, and processes for addressing negative influences on government contracting, including an improved approach to evaluating proposals. Specific guidance for avoiding FIWA is provided for government officials and employees, government agencies, and government contractors, and practical solutions to problems faced by individuals

and organizations involved in government contracting are intended for both practitioner and pedagogical applications. The "Government Procurement Corruption Wall of Shame" that was introduced in the first edition to illustrate contracting perils such as conflicts of interest, duplicity, favoritism, incompetence, kickbacks, and protests is continued in the second edition, and cases illustrating the existence of FIWA in government contracting have been thoroughly updated. Contracting documents and contract management tools are provided on a website designed to accompany the book. Written at the graduate level and specifically intended for state, local, federal, and international government procurement activities, this textbook is required reading for public procurement, contract management, business, and public administrations courses.

Save time and eliminate errors with this quick-reference, A-Z guide to the language of procurement! Successful government contracting requires the use of precise, up-to-date terminology, as well as a firm understanding of current regulatory and case law. This quick-reference guide saves time and makes your job easier by providing ready definitions for more than 1500 terms, phrases and acronyms used in government procurement. Completely up-to-date terminology reflects statutory and regulatory changes, including some 600 terms relating directly to the rules and procedures mandated by various statutes and regulations, including: the Federal Acquisition Streamlining Act, the Clinger-Cohen Act, the Federal Acquisition Regulation and agency FAR supplements. Written by preeminent experts on government contracts, Ralph C. Nash, Jr., Karen O'Brien-DeBakey, and Steven L. Schooner, The Government Contracts Reference Book provides clear explanations for general terms related

to government procurement, as well as agency-specific terms from the Department of Defense, General Services Administration, Department of Energy, other agencies. Each explanation includes a summary of where the term is used in the statutes or regulations, including citations to the source documents. Organized in an easy-to-use alphabetical format and fully cross-referenced, this essential reference will help you manage all aspects of the procurement process with greater efficiency and confidence. The ideal starting point for further research! When you need to explore a term or topic further, The Government Contracts Reference Book serves as an invaluable research tool. You'll find: Current citations to FAR, DFARS, DEAR, NFS and other regulations, as well as to pertinent statutes, federal court decisions, administrative board decisions, and other important material Frequent references to sources of additional information, including some 50 texts, scores of articles from more than 30 different periodicals and many other types of documents issued by both government and private industry Web and Internet addresses for dozens of government and industry resources are also included Cross-references provided in ALL CAPS for ease of use

The book is focused entirely on the formation of a contract - from the earliest planning until contract award. For our purposes, the award of a contract begins the process of contract administration, a separate process. As with previous editions, the goal is to make the reader aware of the statutes, regulations and decisions that establish the complex rule structure that is followed in the process of entering into government contracts.

This second edition of *Contracting for Services in State and Local Government Agencies* provides state-of-the-art tools for best practice in the procurement of services at state and local levels, from initial stages through to completion. Including lively case studies and research conducted with state and local agencies across the United States, this book provides management advice and tips on compliance to reduce costs, select the best-qualified contractors, manage contractors' performance, and prevent corruption and waste. Utilizing the results of new research in all fifty states, author William Sims Curry offers updated best-practice documents, methodologies, and templates including: a Request for Proposal (RFP), a scorecard for proposals to select the best-qualified contractor, a toolkit for meeting socioeconomic contracting goals without compromising price, quality, or on-time delivery, and a Model Services Contract (MSC). Special consideration is given to obtaining services and products in states of emergency. Several additional resources for practitioners are available online, including sample contracts and a straightforward, inexpensive tool for tracking contractors' progress and cost management. The roadmap and templates contained in this book and available online to readers will prove essential to state and local government agency contracting professionals and other officials and employees called upon to participate in the drafting of solicitations, writing sole source justifications, writing scopes of work, serving on advance contract planning and source selection teams, recommending award of contracts, or assisting in the management of those contracts.
