Advanced topics in algebra. Students will expand their understanding about functions by learning about polynomial, logarithmic, and trigonometric functions. These new functions along with linear, quadratic, and exponential, will be used to model a variety of problems, including compound interest, complex numbers, growth and decay, projectile motion, and periodic phenomena.

Common Core Algebra 2.
Common Core Algebra 2
(MRS21H - MRS22H) Common
Core Algebra 2 is the
capstone course of the three
units of credit required for
a Regents diploma. This
course is a continuation and
extension of the two courses
that preceded it. While
developing the algebraic
techniques that will be
required of those students
that continue their study of
mathematics, this course is
also intended to continue
developing alternative
solution strategies and
algorithms.
