another, simply can't cross that technological hurdle. Voice recognition software then offers them access to an entire new world, one where they don't need to worry about dealing with an interface any more complicated than the human voice. If this sounds like the type of interaction that you can get behind, then the Amazon Echo Dot is the device that you have been waiting for. The Amazon Echo Dot is a digitized personal assistant that sits in your home and awaits your instructions, 24 hours a day and 7 days a week. The Echo Dot, and its operating system Alexa, is capable of making almost any day-to-day interaction easier or can ensure it is done as quickly as possible. Being an audio-only device, however, means that if you are looking to have Alexa do something for you, you are going to need to know how to ask. That is where this book comes in as it will walk you through all of the tasks that most users

If you want take-out food, then Alexa is one of the ways you can use to place the order. This is all thanks to support by Grubhub, Domino's Pizza, Wingstop, Seamless, and other companies. You can also order meals with Amazon Prime using Alexa in as many as 20 major cities in the US. What's more, an addition in November 2017 including Alexa Cloud Cam is proving effective in helping Amazon couriers unlock front doors to customer houses when delivering packages so that they can put them safely inside the house.
