The goal of eliminating
disparities in health care
in the United States remains

Get Free Asc X12 5010 Consolidated Guide

elusive. Even as quality improves on specific measures, disparities often persist. Addressing these disparities must begin with the fundamental step of bringing the nature of the disparities and the groups

Get Free Asc X12 5010 Consolidated Guide

at risk for those
disparities to light by
collecting health care
quality information
stratified by race,
ethnicity and language data.
Then attention can be
focused on where

Get Free Asc X12 5010 Consolidated Guide

interventions might be best applied, and on planning and evaluating those efforts to inform the development of policy and the application of resources. A lack of standardization of categories for race,

Get Free Asc X12 5010 Consolidated Guide

ethnicity, and language data has been suggested as one obstacle to achieving more widespread collection and utilization of these data. Race, Ethnicity, and Language Data identifies current models for
