Whether you are simply curious about our mysterious neighbor—the Moon—or a teacher looking for ways to teach concepts about the Moon without misconceptions, *Everything Moon* is the non-technical, comprehensive guide you are seeking. From theories on the origin of the Moon, to phases, tides, eclipses, geology, past, current, and future missions, to the Apollo Program, *Everything Moon* guides you through the science and history you need to understand the Moon and includes creative, engaging investigations to develop important concepts. Written with teachers and students in mind, *Everything Moon* is a book for anyone who has ever asked themselves questions about our view of the Moon: what causes the same face of the Moon to face Earth every day; is there really a dark side of the Moon; what causes eclipses, tides and phases? With clear explanations, images, activities, and examples, *Everything Moon* will not only answer your questions about the Moon, but will spark a lively interest in all things lunar.
