From Liberia to Senegal to Mozambique, in creaky trucks and by back roads, French introduces us to the characters who make up China's dogged emigrant population: entrepreneurs singlehandedly reshaping African infrastructure, and less-lucky migrants barely scraping by but still convinced of Africa's opportunities. French's acute observations offer illuminating insight into the most pressing unknowns of modern Sino-African relations: Why China is making these cultural and

This book investigates the expanding involvement of China in security cooperation in Africa. Drawing on leading and emerging scholars in the field, the volume uses a combination of analytical insights and case studies to unpack the complexity of security challenges confronting China and the continent. It interrogates how security considerations impact upon the growing economic and social links China has developed with African states.

economic relationship between China and developing African nations, claiming that the nation's lack of colonial past and political preconditions provides China a unique opportunity to help Africa direct its own fate.

The People's Republic of China once limited its involvement in African affairs to building an occasional railroad or port, supporting African liberation movements, and loudly proclaiming socialist solidarity with the downtrodden of the continent. Now Chinese diplomats and Chinese companies, both state-owned

China and Africa: A Century of Engagement presents a comprehensive view of the relationship between this powerful Asian nation and the countries of Africa. This book, the first of its kind to be published since the 1970s, examines all facets of China's relationship with each of the fifty-four African nations. It reviews the history of China's relations with the continent, looking back past the establishment

Edited with authority by the influential and respected Stephen Chan, this unique collection of essays gathers together for the first time both African and Chinese perspectives on China's place in Africa. The book starts with an excellent introductory essay from Stephen Chan, written in his usual elegant prose and featuring some very fresh insights organised with great clarity. Featuring

useful historical context, this brave book analyses the "moral" aspects of the policies and ensuing migration. The book completely undermines existing assumptions concerning Sino-African relations, such as that Africa is of critical importance for China; that China sees no risk in its largesse towards Africa; and that there is a single Chinese profile/agenda. The resulting collection touches the issue of racism but is equally about moments of pure idealism and 'romance' in Sino-African history.
