The Green Mysteries is the product of twenty-five years of experiential research on the spiritual and occult properties of plants. Presenting a vast array of trees and herbs from many spiritual traditions, this exhaustive compendium examines their folklore, magical uses and spiritual essences. While presenting the material through both magical and mythopoeitic narrative, the stance of the book is also grounded firmly in supportive disciplines such as botany, chemistry, and anthropology and also includes up to date phylogenetic and pharmacological findings. Interspersed with the encyclopedic plant entries are short narratives addressing such concepts as the Witches' Flying Ointment, intoxicating incense, the herbal dimension of alchemy, and the "Green Saints" such as Al-Whidiri, the medieval Wildman, and the forest-dwelling Nymphs who nourished the Greek gods. More than a mere collation of previously existing works on plants, much of the material is drawn directly from the author's private field notes, diaries, and manuals of magical operation, presented in an engaging narrative style. Illustrated with with over 270 original illustrations by Benjamin Vierling, commissioned for the project.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

"The horse makes me better." Sallie Stewart suffered a traumatic brain injury when her Andalusian stallion, Escogido XXV, lost his footing and fell over while she was riding him. Sallie hit the ground first, and then Esco landed on Sallie's head, causing facial fractures and a brain injury that dramatically changed her life. A successful real estate broker and dressage rider at the time of the accident, Sallie had been leading a happy life with her husband, children, and four horses. After Esco fell on her, she lost her memory, her balance, and her ability to perform the most basic tasks. She couldn't hold a job or shake the overwhelming fear that replaced the confidence she once felt. While her husband and sons taught her to walk, talk, dress, and feed herself, Sallie's greatest healing was still to come. With her personal life in disarray and her family's finances in tatters, Sallie was contemplating suicide when she received a life-changing phone call from her dressage coach, Mike Osinski. Osinski calmed the traumatized horse and challenged Sallie to conquer her fears. As she progressed in her lessons, Sallie recovered her memories and developed a new sense of self. She discovered that her deepest healing took place on the back of the very horse that had fallen on her. "Escogido XXV: The Chosen" tells the story of a courageous woman, a compassionate trainer, an extraordinary horse, and their determination to heal their accidental wounds.

Growing up with a Colombian father for whom magical realism was a way of life made ordinary reality feel like an immigrant experience for author Jose Chaves, who was born in the U.S. but, as his father would insist, made in Colombia!" That experience comes alive like a movie on the page in The Contract of Love, a memoir about family that is both hilarious and heartbreaking. Chaves' straightforward style turns the familiar exotic and makes the unfamiliar feel like home as he takes readers on a cultural journey from small-town, muscle-car America to the Chaves family farm in Colombia, where the cow is named Lyndon Johnson, and an emotional journey from his father's volatile world where unrequited love is sung out loud in restaurants, to a fraternity where the most important rule is to never reveal your feelings to another guy in public. With tenderness, humor, and hypnotic clarity, Chaves explores the landscape of love that holds us together, beyond the addictions that bind us-- from the broken faith that sends a boy spiraling down, to the grace that finds the man.
