All 1967-1976 Dodge Darts were rear-wheel drive, which makes the all-new front-wheel-drive Dodge Dart a source of great mystery. As Dart production churned into the millions, it was the quintessential $500 car in the latter decades of the 20th century for those seeking a ride for the same reasons Dodge marketed the car in the first place.

Now 60 years old, your Slant Six could probably use some freshening up. Slant Six engine expert Doug Dutra has produced this volume to walk you through every aspect of disassembly, evaluation, rebuild, and reassembly in an easy-to-read, step-by-step format. The book also covers modifications, showing how to squeeze the most out of your engine. The year 1960 was an important one in auto manufacturing; it was the year all of the Big Three unveiled entrants in a new class of car called the compact. Chrysler's offering, the Plymouth Valiant, was paired with its redesigned 6-cylinder engine entrant, the Slant Six, known by its nickname the "leaning tower of power." This engine powered the Valiants when they swept the top seven positions in the newly christened compact race that precluded the Daytona 500. With its legacy intact, Chrysler's Slant Six powered Mopar automobiles for decades to come in three displacement offerings (170, 198, 225). With millions of Slant Six engines built over the 30-plus years that the engine was produced, it's always a good idea to have this book handy, as you never know when the next "leaning tower of power" will find its way into your garage! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Dodge introduced the Dart range of cars to compete in the low-price market. Although basically the same as the equivalent Plymouth models marketing changes brought the Dodge dealers in competition with other brands. The top of the range Phoenix could come with D-500 Ram Induction. However, the 410hp Ramcharger pandered to the (street racer8 brigade at a reasonable price. This is a book of contemporary road and comparison tests, specification and technical data, new model intro's, driver's impressions, analysis. Models covered include: Seneca, Phoenix D500, Pioneer, V8, 440, Convertible, Ramcharger, Compact, GT, 270, GT225, GT V8, GTS, 340GTS, Swinger, Demon, Sport, Coupe, SE.

Briefly describes the contents of books that explain specific skills and techniques in fields, such as business, graphics, health, and manufacturing.
