Argues for responsible action in the treatment of animals, challenging popular conceptions about animal feeling and awareness and profiling a safari convention, factory farm, and the works of top writers.

A "marvelous" (Economist) account of how the Christian Revolution forged the Western imagination. Crucifixion, the Romans believed, was the worst fate imaginable, a punishment reserved for slaves. How astonishing it was, then, that people should have come to believe that one particular victim of crucifixion—an obscure provincial by the name of Jesus—was to be worshipped as a god. *Dominion* explores the implications of this shocking conviction as they have reverberated throughout history. Today, the West remains utterly saturated by Christian assumptions. As Tom Holland demonstrates, our morals and ethics are not universal but are instead the fruits of a very distinctive civilization. Concepts such as secularism, liberalism, science, and homosexuality are deeply rooted in a Christian seedbed. From Babylon to the Beatles, Saint Michael to #MeToo, *Dominion* tells the story of how Christianity transformed the modern world.

C.J. Sansom rewrites history in a thrilling novel that dares to imagine Britain under the thumb of Nazi Germany. 1952. Twelve years have passed since Churchill lost to the appeasers and Britain surrendered to Nazi Germany. The global economy strains against the weight of the long German war against Russia still raging in the east. The British people find themselves under increasingly authoritarian rule -- the press, radio, and television tightly controlled, the British Jews facing ever greater constraints. But Churchill's Resistance soldiers on. As defiance grows, whispers circulate of a secret that could forever

alter the balance of the global struggle. The keeper of that secret? Scientist Frank Muncaster, who languishes in a Birmingham mental hospital. Civil Servant David Fitzgerald, a spy for the Resistance and University friend of Frank's, is given the mission to rescue Frank and get him out of the country. Hard on his heels is Gestapo agent Gunther Hoth, a brilliant, implacable hunter of men, who soon has Frank and David's innocent wife, Sarah, directly in his sights. C.J. Sansom's literary thriller *Winter in Madrid* earned Sansom comparisons to Graham Greene, Sebastian Faulks, and Ernest Hemingway. Now, in his first alternative history epic, Sansom doesn't just recreate the past -- he reinvents it. In a spellbinding tale of suspense, oppression and poignant love, *Dominion* dares to explore how, in moments of crisis, history can turn on the decisions of a few brave men and women -- the secrets they choose to keep and the bonds they share.

Bankruptcy in America, in contrast to most other countries, signifies a chance for debtors to stop and recover. This text probes the political dynamics behind this system and provides an account of the journey American bankruptcy law has taken from its beginnings in 1800 to the present day.

How do the living maintain relations to the dead? Why do we bury people when they die? And what is at stake when we do? In *The Dominion of the Dead*, Robert Pogue Harrison considers the supreme importance of these questions to Western civilization, exploring the many places where the dead cohabit the world of the living—the graves, images, literature, architecture, and monuments that house the dead in their afterlife among us. This elegantly conceived work devotes particular attention to the practice of burial. Harrison contends that we bury our dead to humanize the lands where we build our present and imagine our future. As long as the dead are interred in graves and tombs, they never truly depart from

this world, but remain, if only symbolically, among the living. Spanning a broad range of examples, from the graves of our first human ancestors to the empty tomb of the Gospels to the Vietnam Veterans Memorial, Harrison also considers the authority of predecessors in both modern and premodern societies. Through inspired readings of major writers and thinkers such as Vico, Virgil, Dante, Pater, Nietzsche, Heidegger, and Rilke, he argues that the buried dead form an essential foundation where future generations can retrieve their past, while burial grounds provide an important bedrock where past generations can preserve their legacy for the unborn. *The Dominion of the Dead* is a profound meditation on how the thought of death shapes the communion of the living. A work of enormous scope, intellect, and imagination, this book will speak to all who have suffered grief and loss.

A historian of antiquity shows how the Christian Revolution forged the Western imagination. Crucifixion, the Romans believed, was the worst fate imaginable. It was this that rendered it so suitable a punishment for slaves. How astonishing it was, then, that people should have come to believe that one particular victim of crucifixion—an obscure provincial by the name of Jesus—had been a god. *Dominion* explores the implications of this shocking conviction as they have reverberated throughout history. Today, the West remains utterly saturated by Christian assumptions. Our morals and ethics are not universal. Instead, they are the fruits of a very distinctive civilization. Concepts such as secularism, liberalism, science, and homosexuality are deeply rooted in a Christian seedbed. From Babylon to the Beatles, Saint Michael to #MeToo, *Dominion* tells the story of how Christianity transformed the world.

In this book, Muncy explains the continuity of white, middle-class, American female reform activity between the Progressive era and the New Deal. She argues that during the Progressive era, female reformers built an interlocking set of organizations that attempted to control child welfare policy. Within this policymaking body, female progressives professionalized their values, bureaucratized their methods, and institutionalized their reforming networks. To refer to the organizational structure embodying these processes, the book develops the original concept of a female dominion in the otherwise male empire of policymaking. At the head of this dominion stood the Children's Bureau in the federal Department of Labor. Muncy investigates the development of the dominion and its particular characteristics, such as its monopoly over child welfare and its commitment to public welfare, and shows how it was dependent on a peculiarly female professionalism. By exploring that process, this book illuminates the relationship between professionalization and reform, the origins and meaning of Progressive reform, and the role of gender in creating the American welfare state.

Welcome to the future, where the norms are vast bio-constructed cities, air toxic enough to force citizens to wear oxygen masks, and crime so severe that the cops drive tanks! When a mysterious winged girl with the power to cleanse the poisoned air is kidnapped by the villainous Buaku, police mini-tank commander Leona Ozaki, her tank Bonaparte, and her lovesick partner Al must confront the arch-criminal and his catgirl molls-the beautiful and deadly Annapuma and Unipuma-before Buaku's master plan kicks into gear. Buaku has more than money on his mind, and the future fate of humanity hangs in the balance! Produced by international comics superstar Shirow Masamune, creator of Appleseed and
