For top-load washers, a leak from the top could be due to oversudsing or overloading (both of which are easily resolved), whereas a leak from the bottom could suggest an issue with the water pump. For front-load washing machines, a front leak could be caused by a damaged or dirty door seal, but a bottom leak is more likely to be caused by a worn drum seal.

Front load washers are energy efficient, offer powerful wash cycles, and they can be stacked with one of the best dryers, making them ideal if you ' re short on space. Admittedly, you will normally pay more upfront for a front load washer than you would with one of the best top load washing machines . however, front load washers are normally cheaper to run and use less water too.
