This comparative study focuses on the history, organization, and personnel of the central convent, an institution at the heart of the international military religious orders of the Hospital and the Temple, in Jerusalem, Acre, and Cyprus, from 1099/1120 to 1310.

This county history is extraordinarily rich in primary source materials, including abstracts of deeds from 1681 through the Revolutionary War period and, moreover, petitions, divisions of estates, wills, and marriages found in the records of Perquimans and adjacent North Carolina counties. Numbering in the tens of thousands, the records provide the names of all principal parties and related family members, places of residence and migration, descriptions of real and personal property, dates, boundary surveys, names of executors, witnesses, and appraisers, and dates of recording. Altogether, the index contains references to about 35,000 persons!

When Jeff Matovic burst into the office of Dr. Robert Maciunas, he had very few options left. Matovic had suffered for years from Tourette Syndrome, his full-body spasms and outbursts getting progressively worse, to the point that he saw suicide as a viable option. Drugs, physical therapy, prayer—nothing was working. But Dr. Maciunas was a pioneer in deep brain stimulation (DBS), a new therapy that had worked to correct other brain disorders. Could it fix Matovic ' s Tourette ' s? All Matovic had to do was convince Dr. Maciunas that he was a perfect candidate for the procedure. That, and have several electrical leads—a “ brain pacemaker ” —implanted into his skull. Author Jim Fussell is uniquely qualified to tell Matovic ' s story—he suffers from Tourette Syndrome as well. Fussell ' s job as a feature writer for the Kansas City Star brought him in contact with Oprah Winfrey, who first told him about Jeff Matovic, the “ Miracle Man. ” As Fussell learned about Matovic ' s remarkable journey, he vowed to seek him out. This is their story.
