'You are hereby ordered to fall upon the rebels, the MacDonalds of Glencoe, and to put all to the sword under seventy.' This was the treacherous and cold-blooded order ruthlessly carried out on 13 February 1692, when the Campbells slaughtered their hosts the MacDonalds at the Massacre of Glencoe. It was a bloody incident which had deep repercussions and was the beginning of the destruction of the Highlanders. John Prebble's masterly description of the terrible events at Glencoe was praised as 'Evocative and powerful' in the Sunday Telegraph.

In the terrible aftermath of the moorland battle of Culloden, the Highlanders suffered at the hands of their own clan chiefs. Following his magnificent reconstruction of Culloden, John Prebble recounts how the Highlanders were deserted and then betrayed into famine and poverty. While their chiefs grew rich on meat and wool, the people died of cholera and starvation or, evicted from the glens to make way for sheep, were forced to emigrate to foreign lands. 'Mr Prebble tells a terrible story excellently. There is little need to search further to explain so much of the sadness and emptiness of the northern Highlands today' The Times.

From the mock pageantry of the Highlanders to the carefully stage-managed rediscovery of the Scottish Regalia, this trip was a key event in the creation of romantic Scotland. Behind it all lay the great stage manager, Sir Walter Scott. This was the first visit of a British monarch to Scotland for nearly two hundred years, following only two years after the grim horror of the

Radical Insurrection, which saw the last armed rebellion in British history when sixty thousand workers went on strike. The Highland clans that Scott called to Edinburgh were, even as they marched, the subjects of eviction and persecution in their homeland. And yet in this stirring blend of pomp and pageantry, Scott was able to override the grim reality of day-to-day life in a surge of support for a monarch and monarchy, even in England, the subject of ridicule and derision. Prebble brilliantly reveals the rotten heart of corruption, betrayal, and intrigue at the heart of the ceremony of this great occasion, and from it all emerges a vision of Scotland that remains with us today.

'A superb book ... Anybody interested in Scottish history needs to read it' Andrew Marr, Sunday Times Eighteenth-century Scotland is famed for generating many of the enlightened ideas which helped to shape the modern world. But there was in the same period another side to the history of the nation. Many of Scotland's people were subjected to coercive and sometimes violent change, as traditional ways of life were overturned by the 'rational' exploitation of land use. The Scottish Clearances is a superb and highly original account of this sometimes terrible process, which changed the Lowland countryside forever, as it also did, more infamously, the old society of the Highlands. Based on a vast array of original sources, this pioneering book is the first to chart this tumultuous saga in one volume, with due attention to evictions and loss of land in both north and south of the Highland line. In the process, old myths are exploded and familiar assumptions undermined. With many fascinating details and the sense of an epic human story, The Scottish Clearances is an evocative memorial to all whose lives were irreparably changed in the interests of economic efficiency. This is a story of forced clearance,

## File Type PDF John Prebbles Scotland

of the destruction of entire communities and of large-scale emigration. Some winners were able to adapt and exploit the new opportunities, but there were also others who lost everything. The clearances created the landscape of Scotland today, but it came at a huge price.

"In the nineteenth century many of the inhabitants of the Highland glens were cleared out, often by forcible eviction to make way for a more profitable tenant -- the Great Cheviot sheep. Families had to leave the homes where they had lived for generations. Thousands emigrated over the ocean in the hope of a better life ... The effects of it are still being felt in Scotland -- and in the countries where the unwilling migrants settled. Written while the effects it describes were still unfolding, Mackenzie's impassioned History brings the distress of the age unforgettably before the reader"--Back cover.

Account of the British slaughter of thirty-six members of the MacDonald clan at Glencoe, Scotland in 1692.
