Arctic Monkeys Lyrics. "Joining The Dots". Try and think of something colourful for this season. Pull the wool over the gullible for no reason. You are all I have these days, shake it up and run away. With the night squabbling behind you. From the smoke in your hair to the blood in the bruise. And the bows on the shoes you kicked off.

A Handbook for Success as a Creative Pro: * Note - the interior of this book is black and white. "Alex has mastered the methods for effective self-promotion in the creative world." Scott Belsky, Founder Behance, 99u Using our creative skills to make money and make an impact - while staying sane - can be hard as heck.If you don't know what you're doing. A lot has been done to help creatives and artists find success, but much of it doesn't apply to people with 'arty' skills. It can be hard to understand, and some of it is downright unhelpful. With over a decade working for himself as an illustrator, writer and coach, Alex Mathers is intimately familiar with how we can hold ourselves back. The common thread he's discovered in his approach to success is the need to feel alive. Every idea in this book addresses this very human need, distilled into a handy A-Z guide. Though none of us is perfect, the way we think consistently will move us in the right direction. Whether you're an artist, a designer or a writer, working for yourself or with a team, the right mindset is the difference between giving up and thriving. These 26 concepts will help you join the dots, seeing with greater clarity what it takes to be a successful creative. Success is in your hands. - "Alex has provided some of the most valuable and constructive help and advice I've received in my career to date." Sam Octigan, Illustrator, Fine Artist "Once you start to really implement Alex's strategies you WILL see results. I now feel that I have the confidence to really move my business forward and that is all down to Alex's insights and deep knowledge of the modern and fast moving industry that we find ourselves working in." Tom Redfern, Illustrator

This book focuses on strategic staff development in higher education, a sector in which it has been largely viewed as an operational activity with little organizational relevance. The book demonstrates how staff development needs to be based on modern theories of 'organizational learning', aligning itself with institutional and departmental needs as well as the wants and needs of individual staff. The book takes a broad definition of staff development and seeks to cover all aspects of the academic role and the interests of all staff. The traditional focus on teaching and learning is covered but not to the exclusion of other aspects or the interface between different roles. In order to achieve a strategic focus, authors are drawn from a range of backgrounds, including senior staff with strategic leadership roles. The book is, therefore, directed to a wider readership than the community of staff development professionals and designed partly to challenge the dominant discourse and established priorities of staff developers. Towards Strategic Staff Development in Higher Education seeks to combine scholarly review of relevant literature with practical strategies and suggestions for the intended readership, principally senior staff, heads of department and staff development professionals.
