This is a book about the US motion picture industry - its structure and policies, its operations and practices. It looks at the processes that are involved in turning raw materials and labor into feature films. It describes the process of film production, distribution, exhibition and retail - a process that involves different markets where materials, labor and products are bought and sold. In other words, this is a book about how Hollywood works - as an industry. How Hollywood Works: - offers an up-to-date survey of the policies and structure of the US film industry - looks at the relationship between the film industry and other media industries - examines the role of the major studios and the other 'players' - including, law firms, talent agents, and trade unions and guilds - provides access to hard-to-find statistical information on the industry While many books describe the film production and marketing process, they usually do so from an industry perspective and few look at Hollywood critically from within a more general economic, political and social context. By offering just such a critique, Janet Wasko's text provides a timely and essential analysis of how Hollywood works for all students of film and media.

Famous for her avant-garde outfits, over-the-top performances, and addictive dance beats, Lady Gaga is one of the most successful pop musicians of all time. But behind her showmanship lies another achievement: her wildly successful strategy for attracting and keeping insanely loyal fans. She's one of the most popular social media voices in the world with more than 33 million Twitter followers and 55

million Facebook fans. And she got there by methodically building a grassroots base of what she calls her "Little Monsters" - passionate fans who look to her not just for music but also for joy, inspiration, and a sense of community.

The role of the film marketer is both vital and challenging. Promotion is one of the industry's biggest costs, with the campaign of a large film costing up to half its production budget. Box office results, however, are wildly unpredictable: relatively few films a year make a profit. These market conditions make this a unique industry and film marketing a specific and demanding skill set that requires attention early in the career of any marketing student looking to progress in the industry. This new edition of Film Marketing is a thorough update of the first textbook in film promotion. Like in the first edition, Kerrigan takes a socio-cultural, as well as a business view of film marketing and its impact, covering different approaches to promotion according to different aims and audiences internally and externally, and across the world. This book addresses all areas of film marketing from the rigorous perspective of someone with first-hand knowledge of the trade. This new edition also includes: Additional pedagogy and visual examples to reinforce key points A more international range of cases and coverage of non-Western markets to give a global overview of film marketing across the world New and expanded sections on social media, digital promotion, transmedia and crowdfunding This is the original film marketing text which no engaged film or marketing student should be without.

Every year, hundreds of American film schools graduate thousands of aspiring filmmakers. Very few of them, however, leave school prepared for the challenges that await or are fortunate enough to secure the financial backing of a major studio. This practical guide provides all necessary information for newcomers to the profession to get a movie made, information often left out of film school curricula. Topics include finding a project, breaking down a script, creating a production board, casting, budgeting, scouting locations, scheduling, dealing with actors, establishing set protocol, marketing, and many others. Throughout, real-life examples vividly illustrate the subject at hand. Bridging the gap between learning the craft of moviemaking and exercising that craft in the entertainment world, this manual is essential for all who seek a career in film. Instructors considering this book for use in a course may request an examination copy here.

Over the past four decades, a series of PR campaigns have helped to shape popular culture and influence public opinion. Campaigns that Shook the World provides the inside story on the pivotal PR campaigns of the past four decades, following and celebrating the maturation and expansion of the PR industry towards today's practice. It examines ten of these campaigns in detail from the 1970s to the present day,

explaining their strategy and tactics, looking at the imagery and icons they created and interviewing the powerful, flamboyant personalities who crafted and executed these seminal projects. Each chapter is built around extended case studies including Thatcherism (1979), New Labour, The Royal Family, The Rolling Stones (1981), David Beckham, London 2012, Product [RED], The Obama Campaign (2008) and Dove Real Beauty. Featuring campaigns by Saatchi & Saatchi, Bell Pottinger, Ogilvy, Freuds, Pitch and other well-known agencies, Campaigns that Shook the World grapples with PR's uneasy place at the nexus of politics and celebrity, holding the best campaigns up to scrutiny and showcasing just how powerful PR can be as an instrument of change, for the good, and at times for the less than good. It contains insights from Alastair Campbell, Lord Tim Bell, Alan Edwards, Paddy Harverson, Matthew Freud and many others.
