At the same time, you need information and you know that what you seek is embedded somewhere in your Access database. Without a more sophisticated knowledge of how to extract and present that data, you're forced to rely on office gurus and overworked IT people to provide canned reports or one-size-fits-all solutions. This book changes all that by giving you the skills to build efficient front-ends for data (forms), publish the results in an attractive and easy-to-read format (reports), and extract the data you need (queries). This book shuns the big Access picture and instead focuses intently on forms, reports, and queries.
