Heartwarming and Heart-Opening Stories Gathered from Decades of Medical Practice Bernie Siegel first wrote about miracles when he was a practicing surgeon and founded Exceptional Cancer Patients, a groundbreaking synthesis of group, individual, dream, and art therapy that provided patients with a "carefrontation." Compiled during his more than thirty years of practice, speaking, and teaching, the stories in these pages are riveting, warm, and belief expanding. Their subjects include a girl whose baby brother helped her overcome anorexia, a woman whose cancer helped her heal by teaching her to stand up for herself, and a family that was saved from a burning house by bats. Without diminishing the reality of pain and hardship, the stories show real people turning crisis into blessing by responding to adversity in ways that empower and heal. Through her uncomplicated formula for success -- God first, family second and career third -- she achieved her dream. She inspired. She motivated. She cared. Mary Kay often said that if you expect great things, great things will happen. So expect results. Expect success. Miracles happen. Mary Kay Ash knew when she created her dream company that its success would largely depend on the principles upon which it was founded. In her wisdom, she realized that by building a solid foundation, and never wavering from it, she would distinguish her company and set the stage for women to succeed for decades to come. Mary Kay herself said, "The Company bears my name, but it has a life of its own. The true success is the lives that have changed for the better." Today, the independent sales force wholeheartedly embraces Mary Kay's vision of enriching women's lives. Because she believed that women would understand and support her mission, her legacy will continue to grow, inspiring generations of women around the world to believe that miracles happen.

Most modern prejudice against biblical miracle reports depends on David Hume's argument that uniform human experience precluded miracles. Yet current research shows that human experience is far from uniform. In fact, hundreds of millions of people today claim to have experienced miracles. New Testament scholar Craig Keener argues that it is time to rethink Hume's argument in light of the contemporary evidence available to us. This wide-ranging and meticulously researched two-volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts. Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic, Keener suggests that many miracle accounts throughout history and from contemporary times are best explained as genuine divine acts, lending credence to the biblical miracle reports.
