and pre- and post-hospital care. This essential resource benefits from an international perspective, with contributions from experienced and highly-specialised clinicians from around the world. Essential reading for children's and perioperative nurses, and others who work in the perioperative area. Evidence-based, with clear links to nursing practice. Focuses on key skills and knowledge. Emphasises patient-centred care. Edited by an internationally-regarded children's nurse.

This book reflects the cumulative work of two previous iterations and includes their complete text. It is a foundational volume that articulates the essentials of this specialty, its accountabilities and activities - the who, what, when, where,

and how of its practice - for both specialists and generalists. The 16 standards themselves - those by which all nurses in this specialty practice and their practice competencies measured and evaluated - are grounded in the perspectives and priorities of pediatric nursing and form the core of the book. The book's extensive scope of practice discussion - of its characteristics, development and trends, education and training, its practice environments and settings, its general and specialized practice roles, its ethical and conceptual bases - lends a broad context for understanding and using these standards. Although this reference and guide is mainly for practicing nurses and nursing faculty and students, *Pediatric Nursing: Scope and Standards of Practice* is also an essential source document for other pediatric specialists,

education, and practice pearls. Staff and student nurses working in clinics, critical care units, pediatric units, operating rooms, post-anesthesia care units, emergency departments, and radiology departments will benefit from the information presented. Although this book is written for nurses, child life therapists, physical and occupational therapists, medical students and neurosurgery residents will also find it helpful. Parents of children with neurosurgical disorders will also find it a useful resource in understanding their child's condition. Cathy C. Cartwright and Donna C. Wallace have been awarded third place in the 2017 American Journal of Nursing Book of the Year Awards in CHILD HEALTH category.
