There's a saying on Earth: "Fake it till you make it." Sadly, I'm no longer on Earth. My motto is: "Fake it till you get caught." I'm trying to settle into being the Oath Forger, trying to resist the advances of the five most powerful kings in the galaxy (it's going about as well as you'd think), expecting my lies to catch up with me at any second.

Oath Forger book two by Nia Mars. It isn't easy to pretend to be the Oath Forger, not when four of the Five men demand my attention, not when they want me to claim them and believe me, they are gorgeous. Saying no keeps getting harder and harder. The only thing I know for sure

Another great installment in the Oath Forger series. I really enjoy these books. The plot is thickening & things are heating up between Ava and The Five. I absolutely adore all of the kreks and how they interact with Ava. This book picks up right where book 2 ended and is compelling straight through! Loved it!

Earth was in a system-wide failure by the time the ali. I am not generally a big fan of the Sci Fi genre, I tend to stick with Fantasy and Urban Fantasy, but I really liked Mars! Oath Forger. Well written, Mars paints a picture of a desolate Earth where the biggest threat comes from above: Space Pirates.
