Test of divisibility by 4: ALL multiples of 100 are divisible by 4. e.g. 100 ÷ 4 = 25; 300 ÷ 4 = 75 and so on. Thus, if any number added to such numbers is also divisible by 4, the whole of the new number so formed is divisible by 4.

In this must-have for anyone who wants to better understand their love life, a mathematician pulls back the curtain and reveals the hidden patterns—from dating sites to divorce, sex to marriage—behind the rituals of love. The roller coaster of romance is hard to quantify, defining how lovers might feel from a set of simple equations is impossible. But that doesn't mean that mathematics isn't a crucial tool for understanding love. Love, like most things in life, is full of patterns. And mathematics is ultimately the study of patterns—from predicting the weather to the fluctuations of the stock market, the movement of planets or the growth of cities. These patterns twist and turn and warp and evolve just as the rituals of love do. In *The Mathematics of Love*, Dr. Hannah Fry takes the reader on a fascinating journey through the patterns that define our love lives, applying mathematical formulas to the most common yet complex questions pertaining to love: What's the chance of finding love? What's the probability that it will last? How do online dating algorithms work, exactly? Can game theory help us decide who to approach in a bar? At what point in your dating life should you settle down? From evaluating the best strategies for online dating to defining the nebulous concept of beauty, Dr. Fry proves—with great insight, wit, and fun—that math is a surprisingly useful tool to negotiate the complicated, often baffling, sometimes infuriating, always interesting, mysteries of love.

From the metamorphosis of a caterpillar to a butterfly to the life cycle of a wood frog, detailed photographs of plant and animal development, paired with concise text, introduce young readers to life cycles. Whether it is a life cycle of a maple tree or a chicken, readers will find that each share basic needs for food, water, light and air.

Once your child has learned to add and subtract numbers, the next step is to understand basic multiplication and division. In *Excel Maths Early Skills: Multiply and Divide*, your child will learn to recognise and draw equal groups of objects share objects into equal groups count up in groups of 2, 5 and 10 Throughout this series your child will learn to recognise numbers all around them and become more confident in using them. A clear, easy-to-follow page design has been developed, with clear explanations to help both parents and children.

The *Oxford Handbook of Dance and Reenactment* brings together a cross-section of artists and scholars engaged with the phenomenon of reenactment in dance from a practical and theoretical standpoint. Synthesizing myriad views on danced reenactment and the manner in which this branch of choreographic performance intersects with important cultural concerns around appropriation this Handbook addresses originality, plagiarism, historicity, and spatiality as it relates to cultural geography. Others topics treated include transmission as a heuristic device, the notion of the archive as it relates to dance and as it is frequently contrasted with embodied cultural memory, pedagogy, theory of history, reconstruction as a methodology, testimony and witnessing, theories of history as narrative and the impact of dance on modernist literature, and relations of reenactment to historical knowledge and new media.

Ain-ul-Faqr (the soul of Faqr) is the most popular book by the eminent Saint of Sub-continent Hazrat Sakhi Sultan Bahoo. This subtle book contains spiritual lessons for all the common and special seekers of Allah whether they are at initial, middle or final level. It invites every Muslim towards the closeness, vision and union of Allah, hence achieve the main objective of life and religion. Sultan Bahoo beautifully uses verses of Quran, Hadiths and sayings of other Saints to endorse his words, which makes the seekers of Truth, believe and follow his sayings spontaneously. The marvel of this miraculous book is that it spiritually elevates its readers just by reading it with faith and true devotion. It diverts one's attention from the wishes of transitory wealth and honour of this mortal world towards the treasures and honour of closeness of Allah in the hereafter. Sultan Bahoo also suggests the keys to this treasure and honour i.e. the zikr of Ism-e-Allah Zaat and guidance of Murshid Kamil. It is ensured that whoever reads this book with true intention to find the Reality, will surely be blessed with the accomplishment of his objective. Presidential term limits are one of the most important institutions in presidentialism. They are at the center of contemporary and historical debates and political battles between incumbent presidents seeking additional terms and their political opponents warning against democratic backsliding and the dangers of personalism. Bringing the team of country experts, comparativists, theorists, constitutional lawyers, and policy practitioners together, *The Politics of Presidential Term Limits* is a book that aims to provide a one-stop source for the comprehensive study of this topic. It includes theory and survey chapters that explain presidential term limits as an idea, constitutional norm, and an institution; country and comparative chapters including historical, intra-regime, and comparative regional studies, chapters that examine the effects of term limits as well as studies from the perspective of on-the-ground international constitutional builders and that ask what difference do term limits make --Provided by publisher

The *Targeting Handwriting NSW Year 4 Student Book* focuses on consolidation of joining skills, plus: teaching of trickier joins like joining to s, horizontal joins to e, joined double f and joined ft students begin to assess their own letter size and spacing, spacing between words, and slope Handwriting is one of the most crucial skills students will develop in primary school. Targeting Handwriting covers the handwriting curriculum in a clear and structured way, with content directly linked to NSW syllabus outcomes. Writing is a vital, compelling form of communication. Children need to write every day, for a variety of purposes and for a variety of audiences. To be competent writers, their handwriting needs to be fluent and legible. The teaching of handwriting is an essential part of the writing curriculum.

A course which bridges the gap between intermediate level and the FCE exam.
