Award-winning sommelier Chris Morrison believes that your wine decisions should be driven by your own sense of taste - and by the way you like to eat, drink and live. In This Is Not A Wine Guide he helps readers develop the confidence to choose, purchase, serve, share and ultimately even collect wine without feeling the need to rely on the 'old rules' involving notes, scores, jargon and reviews. Morrison answers the question all of us ponder when faced with choosing wine from a wine list or from the bottleshop shelf: 'Where do I start?' This Is Not A Wine Guide tackles the fundamentals and then moves from the bottle forwards: into the reasons you choose it, open it and drink it; with what company, under what circumstances, in what glasses - and with what food. Because this is a wine book for people who also love food. For Morrison, food and its taste and textures represent the narrative that can unlock wine - 'wine doesn't make sense without food'. This Is Not A Wine Guide is packed with information and advice to help you get the most out of your wine experience, whether it's cracking a bottle for a barbecue, navigating a wine list in a restaurant, wondering what to serve with kimchi, or what to do when the cork crumbles.

PASS THE LEED GREEN ASSOCIATE EXAM WITH FLYING COLORS! The LEED Green Associate V4 Exam Complete Study Guide aims to provide deep insight into the principles of green building; and helps the reader to learn, rather than to memorize the essential information for the exam. Thus, this approach equips candidates to successfully pass the LEED Green Associate exam with flying colors in order to actively apply green building and LEED principles in real life.This book is the only resource a candidate needs, in order to successfully pass the exam. As LEED v4 is quite different in comparison to the former versions, the book was entirely re-written; thus, it was not updated from a previous edition. All of the chapters contain guidance on the aspects that require extensive attention, while the book points out the finer details to focus on for the exam purposes. It does not matter how much time passes after taking the exam, as learning the real reasons behind the green building and LEED principles through observation will help to consolidate this information concisely.Even though the LEED Green Associate exams are sometimes referred to as conceptual exams, in reality the exam goes well beyond that. Without diving into the LEED prerequisites and credits, a candidate cannot ever guarantee passing the test; as a result, the book covers the core concepts of each LEED credit category, and then evaluates the LEED prerequisites and credits to demonstrate how those green building concepts turn into real projects with LEED requirements.The book is also recommended for students, professionals, and anyone who has not chosen to take an LEED professional exam, but nonetheless retains a strong interest in LEED and green buildings.
