Sir Bentley, an honorable young knight, abandons his calling in order to seek the truth of the Prince. Choosing to live as the Prince did, he forsakes his former lifestyle and wealth to live as a pauper. His travels take him to Holbrook, where the townsfolk live in poverty, paying high taxes to support the lavish lifestyle of Lord Kingsley and his court. But something even darker is lurking in the shadows of the beautiful castle. Bentley soon befriends Eirwyn, a mysterious but compassionate young woman who often distributes food among the poor. When Eirwyn is kidnapped by a ruthless tribe to serve as a sacrifice, Bentley battles a vicious mountain creature to save her life. But when he discovers who is really behind Holbrook’s downfall, he’s faced with an even bigger challenge—battling the Dark Knight’s most evil commander and his Shadow Warriors as they attack the castle. Will greed destroy the kingdom the way it destroyed Lord Kingsley? Or can Sir Bentley and Eirwyn work together to restore order and prosperity to the kingdom through the compassion and grace of the Prince? Journey to Arrethtrae, where these knights of noble heart live and die in loyal service to the King and the Prince. These knights are mighty, for they serve a mighty King. They are...the Knights of Arrethtrae!

Learn how to implement a DSL with Xtext and Xtend using easy-to-understand examples and best practices About This Book Leverage the latest features of Xtext and Xtend to develop a domain-specific language. Integrate Xtext with popular third party IDEs and get the best out of both worlds. Discover how to test a DSL implementation and how to customize runtime and IDE aspects of the DSL Who This Book Is For This book is targeted at programmers and developers who want to create a domain-specific language with Xtext. They should have a basic familiarity with Eclipse and its functionality. Previous experience with compiler implementation can be helpful but is not necessary since this book will explain all the development stages of a DSL. What You Will Learn Write Xtext grammar for a DSL; Use Xtend as an alternative to Java to write cleaner, easier-to-read, and more maintainable code; Build your Xtext DSLs easily with Maven/Tycho and Gradle; Write a code generator and an interpreter for a DSL; Explore the Xtext scoping mechanism for symbol resolution; Test most aspects of the DSL implementation with JUnit; Understand best practices in DSL implementations with Xtext and Xtend; Develop your Xtext DSLs using Continuous Integration mechanisms; Use an Xtext editor in a web application In Detail Xtext is an open source Eclipse framework for implementing domain-specific languages together with IDE functionalities. It lets you implement languages really quickly; most of all, it covers all aspects of a complete language infrastructure, including the parser, code generator, interpreter, and more. This book will enable you to implement Domain Specific Languages (DSL) efficiently, together with their IDE tooling, with Xtext and Xtend. Opening with brief coverage of Xtext features involved in DSL implementation, including integration in an IDE, the book will then introduce you to Xtend as this language will be used in all the examples throughout the book. You will then explore the typical programming development workflow with Xtext when we modify the grammar of the DSL. Further, the Xtend programming language (a fully-featured Java-like language tightly integrated with Java) will be introduced. We then explain the main concepts of Xtext, such as validation, code generation, and customizations of runtime and UI aspects. You will have learned how to test a DSL implemented in Xtext with JUnit and will progress to advanced concepts such as type checking and scoping. You will then integrate the typical Continuous Integration systems built in to Xtext DSLs and familiarize yourself with Xbase. By the end of the book, you will manually maintain the EMF model for an Xtext DSL and will see how an Xtext DSL can also be used in IntelliJ. Style and approach A step-by step-tutorial with illustrative examples that will let you master using Xtext and implementing DSLs with its custom language, Xtend.

Eleanor Herman, the talented author of the New York Times bestselling Sex with Kings and Sex with the Queen goes behind the sacred doors of the Catholic Church in Mistress of the Vatican, a scintillating biography of a powerful yet little-known woman whose remarkable story is ripe with secrets, sex, passion, and ambition. For almost four centuries this astonishing story of a woman's absolute power over the Vatican has been successfully buried—until now.

Top economist Gary Shilling shows you how to prosper in the slow-growing and deflationary times that lie ahead While many investors fear a rapid rise in inflation, author Gary Shilling, an award-winning economic forecaster, argues that the global economy is going through a long period of de-leveraging and weak growth, which makes deflation far more likely and a far greater threat to investors than inflation. Shilling explains in clear language and compelling logic why the world economy will struggle for several more years and what investors can do to protect and grow their wealth in the difficult times ahead. The investment strategies that worked for last 25 years will not work in the next 10 years. Shilling advises readers to avoid broad exposure to stocks, real estate, and commodities and to focus on high-quality bonds, high-dividend stocks, and consumer staple and food stocks. Written by one of today's best forecasters of economic trends-twice voted by Institutional Investor as Wall Street's top economist Clearly explains what to invest in, what to avoid, and how to cope with a deflationary, slow-growth economy Demonstrates how Shilling has been consistently right about major economic trends since he began forecasting in the early 1980s Filled with in-depth insights and practical advice, this timely guide lays out a convincing case for why investors need to be prepared for a long period of weak growth and deflation-not inflation-and what you can do to prosper in the difficult times ahead.

Religion scholar Diana Eck is director of the Pluralism Project, which seeks to map the new religious diversity of the United States, particularly the increasing presence of Hindu, Buddhist, and Muslim communities. In this tenth-anniversary edition of Encountering God, Eck shows why dialogue with people of other faiths remains crucial in today's interdependent world--globally, nationally, and even locally. She reveals how her own encounters with other religions have shaped and enlarged her Christian faith toward a bold new Christian pluralism From the Trade Paperback edition.

Autobiography of a Recovering Skinhead is Frank Meeink's raw telling of his descent into America's Nazi underground and his ultimate triumph over drugs and hatred. Frank's violent childhood in South Philadelphia primed him to hate, while addiction made him easy prey for a small group of skinhead gang recruiters. By 16 he had become one of the most notorious skinhead gang leaders on the East Coast and by 18 he was doing hard time. Teamed up with African-American players in a prison football league, Frank learned to question his hatred, and after being paroled he defected from the white supremac.
