The report is the first complete assessment of the relationship between the RCMP and the IRS system. The focus of the research was to explain how police officers were linked to the IRS system and what actions the police took, if any, if they were aware of abuse. Although the research found that the RCMP was not an active participant in the IRS system, it did conclude that the RCMP assumed a responsive, law enforcement role within the system. The RCMP's role included: - searching for and returning truant children; - finding parents who refused to send their children to school and informing them of their obligations to do so under The Indian Act; - providing transportation to schools; and - occasionally conducting investigations at the schools, primarily related to fires or missing children."--R.C.M.P. news release.

In her first year as a missionary to a small group of native women in the Ecuadorian jungle, Elisabeth Elliot faced physical and spiritual trials. In These Strange Ashes, Elliot captures the mysteries and stark realities surrounding the colorful and primitive world in which she ministered. More than just a recounting of her early days, this is a beautifully crafted and deeply personal reflection on the important questions of life and a remarkable testimony to an authentic Christian commitment.

Life among the Auca Indians of Ecuador, by the widow of a missionary previously killed by the natives.
