impatience. Yet
millions of workers
quit their jobs every
month because they

haven't gotten a promotion. It's natural to want to make the most out of one's career--after all, we spend more time working than any other activity in our busy lives. But the stark reality is that job-hopping in search of advancement and fulfillment may actually have the

opposite effect. So
what's the best way to
"get promoted?"

According to Rick
Whitted, it's about
outgrowing your
space--making your
current job bigger and
bigger until
management gives
you a larger role and
increased
responsibilities. With
a lifetime of
