In 2004, the Government announced 110 Public Service Agreement (PSA) targets for 17 Departments covering the period 2005-08. PSA targets express the priority outcomes that Departments are seeking to achieve nationally and internationally, and cover key aspects of the Government's social, economic and environmental policy. Findings include that 75 per cent of the data systems used are broadly appropriate, but less than half of these were fully fit for purpose. Most required some action to strengthen measurement or reporting arrangements. A companion
