legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase "getting there is half the fun" must have owned a sports car. And the wag who suggested that "it's the journey not the destination"? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck? magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports car—every single day for a year. Which would you choose?

A riveting and beautifully designed YA biography that shows how a once-bullied school boy became an iconic visionary who the New York Times described as "arguably the most important and successful entrepreneur in the world." Elon Musk is the visionary behind SpaceX and CEO of the electric car company Tesla. He is working on unique and daring improvements to both public transit and solar energy. And then, there's his highly-publicized plans for colonizing Mars... But behind the mind-blowing headlines and legendary drive is the story of a bullied and beaten school boy, who through creativity and determination decided to rewrite his story and find his own way to make the world a better place. And to do so with a sense of fun

and style. From hosting raves to pay for college to re-writing the rules on space travel, Elon Musk has always gone his own way. And now, award-winning investigative journalist, Anna Crowley Redding takes readers on a well-researched trip through Elon's life and accomplishments.

Covering the post-World War II era up to the present day, this revised and expanded edition of the best selling 50 years of Classic Sports Cars features no less than 112 cars, and more than 300 photos. The original book's selection of cars is enhanced and brought completely up-to-date by superb photographs of the most stunning machines of the last few years, from the Porsche 911 Turbo, Jaguar XKR and Ferrari 260 Moden to the Ford Cougar, TVR Tuscan Speed Six and Shelby Series.

The new Audi R8 2018 is a beautifully crafted modern sports car that is as easy to drive as it is to live with. It boasts a powerful engine that offers amazing performance and has been ranked in the top 5 Luxury Sports Cars of 2018. The only negatives for this premium sports car is the poor fuel economy and the narrow racing seats that are offered. The Audi R8 has a reasonable starting price compared to other competitors with similar features. However, with additional customisations, the price is expected to increase significantly. When compared to its competitors Lamborghini, Ferrari and Mercedes Benz, the R8 2018 is built ideally for speed rather than primarily luxury.

The Art of the Classic Sports Car offers a beautifully illustrated review of decades of high-performance cars from around the globe, all shot in the studio. Sports cars are the athletes of the automotive world. Always nimble and quick, often powerful, sports cars fly where other cars lumber, and dash where others plod. The definition of a sports car is somewhat fluid, still, most car fans feel that they know a sports car when they see one, and when asked to name a few will rattle off Jaguar, Corvette, Triumph, MG, Aston Martin, Ferrari, Lotus, Alfa-Romeo, BMW, and many others. Sports cars have offered road and track excitement for nearly 100 years. The original cars evolved for racing, but their appeal and popularity ensured that production versions were soon available for those whose sporting intents never left the boulevard or winding back road. The Art of the Classic Sports Car offers enthusiasts a beautifully illustrated review of several decades of high-performance cars, featuring cars from around the globe all shot in the studio to ensure a handsome book. Each featured car includes a profile discussing the car's place in sports car history along with technical and performance specs as well as a smattering of historical images and period ads.
