The Sovereign class, designed around the same time, is 88m high and has 23 (maybe 24) decks, for a deck height of 3.67m. The Akira class is 87m including
a 4 deck weapons pod, so 19+4=23 decks would seem to make sense for the Akira. The windows and MSD also show 19 decks.

Star Empire is the Federation's most powerful new weapon -- a dreadnought, first in a class of super-starships -- capable of outgunning a dozen Klingon cruisers, or subduing a galaxy. On the eve of her maiden voyage, Star Empire is stolen by terrorists who demand a rendezvous with the Starship Enterprise™ -- and with Lieutenant Piper, stationed aboard Kirk's ship on her first training cruise. Now Piper must discover why her friends from Starfleet are among the terrorists...and why they insist the ship was stolen not to attack the Federation -- but to save it!

An all-new Star Trek technical manual of the legendary Klingon Bird of Prey, presented in the world-renowned Haynes Manual format! The Bird-of-Prey is the classic Klingon starship—a tough raiding and scouting vessel that has served at the heart of the Klingon Defense Force for more than a hundred years. Life on board is harsh and brutal, with any sign of weakness leading to a challenge to the death. The ship itself is stripped back and lean, with everything designed for a single purpose—war. This Haynes Manual traces the origins of a Bird-of-Prey from the moment it is commissioned by one of the Great Houses and constructed at the shipyards of the Klingon Naval Academy. It then proceeds to examine General Martok ' s famous ship the I.K.S. Rotarran in unprecedented detail. Featuring a stunning cutaway drawing and, for the first time ever, detailed deck plans and incredible new computer-generated artwork, the Haynes Bird-of-Prey Manual is a technical tour of the ship ' s systems, from the bridge and engineering rooms to the disruptors, torpedo launcher, and the all-important cloaking device. In addition, the Manual provides a unique insight into life on board a Klingon ship and the Rotarran ' s glorious history in the Dominion War. This Haynes Manual is fully authorized by CBS. All the new artwork has been designed by STAR TREK: THE NEXT GENERATION and STAR TREK: VOYAGER ' s senior illustrator Rick Sternbach, who is the world ' s leading expert on STAR TREK technology, with CG renders produced by STAR TREK VFX artist Adam ' Mojo ' Lebowitz.

The follow-up to 'Drive', 'Blast' showcases the latest spaceship designs from Scott Robertson and two of the graduates from the entertainment design programme at the Art Center College of Design.

A thrilling Star Trek: The Original Series adventure featuring Captain James T. Kirk and the USS Enterprise in a strange battle for dilithium crystals against the Klingons. Dilithium. In crystalline form, the most valuable mineral in the galaxy. It powers the Federation ' s starships...and the Klingon Empire ' s battlecruisers. Now on a small, out-of-the-way planet named Direidi, the greatest fortune in dilithium crystals ever seen has been found. Under the terms of the Organian Peace Treaty, the planet will go to the side best able to develop the planet and its resources. Each side will contest the prize with the prime of its fleet. For the Federation—Captain James T. Kirk and the Starship Enterprise. For the Klingons—Captain Kaden vestai-Oparai and the Fire Blossom. Only the Direidians are writing their own script for this contest—script that propels the crew of the Starship Enterprise into their strangest adventure yet!

expansion of knowledge. Among the starships spearheading that endeavor is the USS Titan, commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of Star Trek: Nemesis, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may destabilize. To restore order to the region, Titan ' s long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the Titan crew become the last hope to prevent the quadrant from falling into chaos.

The Starship Spotter was created more than two centuries ago in the early years of deep space travel to serve as a reference guide to assorted space-going vessels. Captains of the spaceships of the United Earth Space Probe Agency used this invaluable tool to help their crews to distinguish friend from foe in the unexplored reaches of the cosmos. When the services were merged to form Starfleet, the Spotter as a paper book disappeared from use. Only recently rediscovered, the newest editions of this historic volume have until now been the sole purview of the students of Starfleet Academy. Each year a new class of Starfleet cadets carefully reviews and revises the contents. The ships displayed in the Starship Spotter are chosen as a tribute to the crews who have served on them and the valour shown, regardless of the ship's affiliation. Although only thirty ships could be selected, the cadets feel that these ships reflect the noble history of space exploration and travel. We proudly present to you the Class of 2383 edition of Starship Spotter.
