"Rivaling the nonfiction works of Steve Sheinkin and Daniel James Brown's The Boys in the Boat...Even readers who don't appreciate sports will find this story a page-turner...School Library Connection, starred review "A must for all library collections...Booklist, starred review Winner of the 2020 AJL Sidney Taylor Honor! From the New York Times bestselling author of Strong Inside comes the remarkable true story of the birth of Olympic basketball at the 1936 Summer Games in Hitler's Germany. Perfect for fans of The Boys in the Boat and Unbroken. On a scorching hot day in July 1936, thousands of people cheered as the U.S. Olympic teams boarded the S.S. Manhattan, bound for Berlin. Among the athletes were the 14 players representing the first-ever U.S. Olympic basketball team. As thousands of supporters waved American flags on the docks, it was easy to miss the one courageous man holding a BOYCOTT NAZI GERMANY sign. But it was too late for a boycott now: the ship had already left the harbor. 1936 was a turbulent time in world history. Adolf Hitler had gained power in Germany three years earlier...Jewish people and political opponents of the Nazis were the targets of vicious mistreatment, yet were unaware of the horrors that awaited them in the coming years. But the Olympians on board the S.S. Manhattan and other international visitors wouldn't see any signs of trouble in Berlin. Streets were swept, storefronts were painted, and every German citizen greeted them with a smile. Like a movie set, it was all just a facade, meant to distract from the terrible things happening behind the scenes. This is the incredible true story of basketball, from its invention by James Naismith in Springfield, Massachusetts, in 1891, to the sport's Olympic debut in Berlin and the eclectic mix of people, events and propaganda on both sides of the Atlantic that made it all possible. Includes photos throughout, a Who's-Who of the 1936 Olympics, bibliography, and index. Praise for Games of Deception A 2020 ALA Notable Children's Book! A 2020 CBC Notable Social Studies Book! Maraniss does a great job of blending basketball action with the horror of Hitler's Berlin to bring this fascinating, frightening, you-can't-make-this-stuff-up moment in history to life. -Steve Sheinkin, New York Times bestselling author of Bomb and Undeclared I was blown away by Games of Deception...It's a fascinating, fast-paced, well-reasoned, and well-written account of the hidden-in-plain-sight horrors and atrocities that underpinned sports, politics, and propaganda in the United States and Germany. This is an important read. -Susan Campbell Bartoletti, Newbery Honor winning author of Hitler Youth A richly reported and stylishly told reminder how, when you scratch at a sports story, the real world often lurks just beneath. --Alexander Wolff, New York Times bestselling author of The Audacity of Hoop: Basketball and the Age of Obama An insightful, gripping account of basketball and bias. --Kirkus Reviews An exciting and overlooked slice of history. --School Library Journal

"*[An] excellent exercise in narrative nonfiction." --Booklist (starred review) From New York Times bestselling author Andrew Maraniss comes the remarkable true story of Glenn Burke, a "hidden figure" in the history of sports: the inventor of the high five and the first openly gay MLB player. Perfect for fans of Steve Sheinkin and Daniel James Brown. On October 2nd, 1977, Glenn Burke, outfielder for the Los Angeles Dodgers, made history without even swinging a bat. When his teammate Dusty Baker hit a historic home run, Glenn enthusiastically congratulated him with the first ever high five. But Glenn also made history in another way—he was the first openly gay MLB player. While he did not come out publicly until after his playing days were over, Glenn's sexuality was known to his teammates, family, and friends. His MLB career would be cut short after only three years, but his legacy and impact on the athletic and LGBTQIA+ community would resonate for years to come. New York Times bestselling author Andrew Maraniss tells the story of Glenn Burke, from his childhood growing up in Oakland, his journey to the MLB and the World Series, the joy in discovering who he really was, to more difficult times: facing injury, addiction, and the AIDS epidemic. Packed with black-and-white photographs and thoroughly researched, never-before-seen details about Glenn's life, Singled Out is the fascinating story of a trailblazer in sports—and the history and culture that shaped the world around him. Praise for Singled Out: "A compelling narrative . . . This is a meticulously researched history of the ways queer culture in the ' 70s intersected with baseball, Blackness, and larger culture wars, with one man at their center." --Kirkus Reviews

Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.
