Tales from Tanzania are now in the past for us and we are no longer in a state of limbo, as I am now typing this from our new home in Juba in South Sudan! We have new adventures, new challenges and a new home to discover and to blog about. To mark this transition, I have created a new blog page to relate our stories from South Sudan.

What the other reviewer said was correct in that there was not much emphasis on the wildlife -- the main subject was traveling misadventures. However this did not perturb me. I would suggest Peter Allison's books for humourous stories that also focus on the animals, but Tales of Tanzania was a nice complement to such books.

The Tales From Tanzania subscriber list has grown! Sister is generally a poor correspondent. She prefers to mop the floor, feed babies, and go check on families with albino children. As I'd suggested in my last Tales, our census at the center has grown radically now that kids are back from the Christmas holidays.

Tanzania has the largest animal population density out of any country in the world. That is, there are more animals per square mile of land in Tanzania than in any other country. Tanzania is home to the famed Mt. Kilimanjaro, the tallest mountain in Africa, with its summit at 19,340 feet (5,895 meters).
