6. Teach them how to play by themselves. Along with teaching your children how to play with you; you should also teach them how to play by themselves. This task can be a little daunting, but it doesn't have to be. Since you should already be playing with your child, you just have to take this one step further. It is called "fading proximity".

Strategies for Teaching Appropriate Play Skills in Children

Similar to step 1 (above), we would teach the child to tolerate playing near peers, also called parallel play. Parallel play remains age-appropriate until about age four when interactive play typically emerges. Tip: Kids love trains? Build one track and have them each drive their own cars around the track. Step 5: Interactive play with peers

Teach Through Play — Encourage Play

Play may consist of amusing, pretend or imaginary, constructive, interpersonal (play with others) or intrapersonal (solitary play) interactions. Play is the way that children learn about the environment, their bodies and their place in the world around them. Social skills are the skills we use everyday to interact and communicate with others. They include verbal and non-verbal communication, such as speech, gesture, facial expression and body language.
