The Millennium **Problems Keith J Devlin**

Typical of the NP problems is that of the Hamiltonian Path Problem: given N cities to visit, how can one do this without visiting a city twice? If you give me a

solution, I can easily check that it is correct.

Dr. Keith Devlin
is a co-founder
and Executive
Director of the
university's H-
STAR institute,
a Consulting
Professor in the
Department of
Mathematics, a
co-founder of
the Stanford

Media X research network, and a Senior Researcher at CSLI.

Keith J. Devlin (Author of The Millennium Problems)

The Millennium Prize Problems are seven problems in

mathematics that were stated by the Clay Mathematics Institute on May 24, 2000. The problems are the Birch and Swinnerton-Dyer conjecture, Hodge conjecture, Navier–Stokes existence and

smoothness, P
versus NP
problem,
Poincaré
conjecture,
Riemann
hypothesis, and
Yang-Mills
existence and
mass gap. A
correct solution
to any of the
problems results
in a US$1

million prize being awarded by the institute to the discoverer(s). To date, the ...

Millennium Prize Problems - Wikipedia

The Millennium Problems are likely to acquire similar

stature, and their solution (or lack of one) is likely to play a strong role in determining the course of mathematics in the current century. Keith Devlin, renowned expositor of mathematics,

tells here what the seven problems are, how they came about, and what they mean for math and science.
