epub The Original Sudoku Page The original Sudoku calendar isthan Sudoku Page A Day Epub #225 just a year of Sudokuits the best year of Sudoku with puzzles that are handcrafted by the experts at Nikoli the Japanese creators of the game Each of thethan full color brain boosting puzzles is crafted by hand providing a level of utterly absorbing and addictive fun The Original PD

"The Best Puzzles Are Made by Happy Employees." So Ad Age describes the credo of Nikoli, the Japanese puzzle company that invented the Sudoku craze and supplies 100% of the puzzles published in Japanese newspapers and magazines. And when they say "made," they mean literally handmade—unlike the computer-generated puzzles found in other American Sudoku products. And that's one of the features that makes THE ORIGINAL SUDOKU BOOK 2— and THE ORIGINAL SUDOKU, published between seasons and already with 115,000 copies in print—unique. The books celebrate the compulsive joy of Sudoku with symmetry, smartness, and elegance. They invite you to match wits with the experts, to step into the 81-cell arena with a puzzle maker who has fiendishly anticipated your next step. Fun without frustration. Other features? More all-new puzzles—over 300, arranged from "Easy" to "Very Hard." The same chunky, easy-to-tote format, because once addicted you will be toting it around everywhere. An informative introduction that shows you how to approach and solve the puzzles. Plus an entirely new idea—an unprecedented tutorial on how to create your very own handmade Sudoku puzzles. The obsession continues.

The more puzzles you solve, the more you want to play — that's the secret of sudoku, the Japanese sensation that's sweeping the globe. There are dozens of sudoku puzzle books available, but this whimsically illustrated edition is specially designed for kids. Its 48 brand-new puzzles are geared toward players from the ages of 8 to 13, but anyone can enjoy them. All you have to do is fill in the squares with the digits 1 through 9 in such a way that each digit appears in each column, row, and large square only once. That's all there is to it! No math skills are needed, just reasoning and logic — and an appetite for hours of nonstop puzzle fun! Solutions appear at the end.
