Long Beach Poly has produced more NFL and MLB players than any other high school. Alumni include household names like Billie Jean King, Snoop Dogg and Cameron Diaz. But before it was named the top athletic high school in America by Sports Illustrated, before it boasted nationally acclaimed academic magnet programs, Long Beach Poly had to overcome an extraordinary set of challenges. From a devastating earthquake that destroyed the original campus to racial tensions that rocked the school, Poly has persevered and excelled. Since its founding in 1895, Poly has been intrinsically woven into the fabric of the Long Beach community, affectionately known as the "Home of Scholars and Champions." Mike Guardabascio and Tyler Hendrickson tell the story of how a school rose from the ashes to become a powerhouse.

Along the California coastline lies the community of San Luis Obispo; a town just as rich in history as it is in beauty. Situated almost directly between Los Angeles and San Francisco, San Luis Obispo was first inhabited by the Chumash and Salinan Indians in 1400 B.C. It took almost 3,000 years before its majestic landscape was encountered by European explorers.

"Maria's perspective is powerful and vital. Years ago, when In the Heights was just starting off-Broadway, Maria got the word out to our community to support this new musical about our neighborhoods. She has been a champion of our triumphs, a critic of our detractors, and a driving force to right the wrongs our society faces. When Maria speaks, I'm ready to listen and learn." -Lin-Manuel Miranda Emmy Award-winning journalist and anchor of NPR's Latino USA, Maria Hinojosa, tells the story of immigration in America through her family's experiences and decades of reporting, painting an unflinching portrait of a country in crisis. Maria Hinojosa is an award-winning journalist who has collaborated with the most respected networks and is known for bringing humanity to her reporting. In this beautifully-rendered memoir, she relates the history of US immigration policy that has brought us to where we are today, as she shares her deeply personal story. For thirty years, Maria Hinojosa has reported on stories and communities in America that often go ignored by the mainstream media. Bestselling author Julia Alvarez has called her "one of the most important, respected, and beloved cultural leaders in the Latinx community." In Once I Was You, Maria shares her intimate experience growing up Mexican American on the south side of Chicago and documenting the existential wasteland of immigration detention camps for news outlets that often challenged her work. In these pages, she offers a personal and eye-opening account of how the rhetoric around immigration has not only long informed American attitudes toward outsiders, but also enabled willful negligence and profiteering at the expense of our country's most vulnerable populations—charging us with the broken system we have today. This honest and heartrending memoir paints a vivid portrait of how we got here and what it means to be a survivor, a feminist, a citizen, and a journalist who owns her voice while striving for the truth. Once I Was You is an urgent call to fellow Americans to open their eyes to the immigration crisis and understand that it affects us all. Also available in Spanish as Una vez fui tú.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Over the last 30 years, Singapore has developed a system of higher education that is the envy of many other countries and regions. How has Singapore developed such a highly performing education system? Was it planned? Was it mere luck? Written by Arnold De Meyer, who is widely regarded as one of the pre-eminent management educators and leaders in higher education, the book focuses on Singapore as an in-depth case study of how to build a system of higher education, and specifically a portfolio of highly differentiated and diversified universities. He worked closely together with Jovina Ang during the preparation of the manuscript. This book is unique because it showcases several case studies of the emerging system of higher education, and it was written based on insights drawn from interviews with the key decision-makers and actors in the system from the past 20 years, including ministers and permanent secretaries of the Ministry of Education, and presidents and chairmen of the six universities. The success of this system can be attributed to several factors: the clarity of purpose of the decision-makers, with clear targets in cohort participation rate, commitment to significant funding for education and research, discipline of an intelligent and well-implemented governance system, flexibility in adjusting plans, and rapid and adaptive learning from overseas partners. In the last few chapters, the authors look at the future of the system and postulate how it should be adjusted to the changes in Singapore and the world. This unique book on educational strategy would be of particular interest to educational specialists and policy-makers in emerging countries who want to build a system of higher education, policy-makers in mature industrialised countries who are faced with the challenge of revamping their system of higher education, strategists who are interested in dynamic capability building and philanthropists who want to use education as an equaliser of social status.
