Sagebrush State 4th Edition - doorbadge.hortongroup.com

The Sagebrush State, 4th Ed: Nevada's History, Government, and Politics (Shepperson Series in Nevada History)

Nevada's politics are in large measure the result of its turbulent history and harsh environment. Michael W. Bowers' concise volume explains the dynamics of the political formation process, which is strikingly unique among the fifty states. Even today, Nevada is unlike the other states in its politics and culture: it's economically right, yet libertarian, the home of widespread gaming and a 24/7 lifestyle, has a high percentage of federally-owned lands, and has one of the highest rates of urbanism in the U.S., yet is often governed by rural legislators. This comprehensive and insightful explanation discusses how Nevada's history has shaped its political culture, and how its government operates today. The Sagebrush State serves as a highly readable and accessible text for the study of Nevada's political history and constitution, which is a graduation requirement at the state's colleges and universities. The fifth edition is updated through 2017 and includes the full text of the state constitution with extensive annotations of all amendments to the original 1864 document.

Nevada's politics have been formed in large measure by its turbulent history and harsh environment. Bowers' concise volume explains the dynamics of this process, which is strikingly unique among the fifty states. This is a readable and insightful explanation of how Nevada's history has formed its political culture, and how its government works today. Revised edition of the indispensable textbook on Nevada's constitution and history

Nevada's politics are in large measure the result of its turbulent history and harsh environment. Michael W. Bowers' concise volume explains the dynamics of the state's political formation process, which is strikingly unique among the fifty states. Even today, Nevada is unlike the other states in its politics and culture: economically right, yet libertarian and home to widespread gaming and a 24/7 industry. It has a high percentage of federally owned lands and one of the highest rates of urbanism in the United States, yet is often dominated by rural legislators. This comprehensive and insightful explanation discusses how Nevada's history has shaped its political culture, and how its government operates today. The Sagebrush State serves as a highly readable and accessible text for the study of Nevada's political history and constitution, which is a graduation requirement at the state's colleges and universities. The sixth edition is updated through 2020 and includes the latest changes in the selection process of municipal court judges in the state, the resurgence of the Democrats after their losses in 2016, and the full text of the state constitution with extensive annotations of all amendments to the original 1864 document. It also examines the effects of the COVID-19 pandemic and the resulting economic downturn on the state's budget.

Sagebrushis high adventure, told with authenticity. Care has been given to making it historically and geographically accurate. The reader will become a part

of the adventure.

"Thompson's investigative chops are impressive." —SIERRA MAGAZINE San Juan County, Utah, contains some of the most spectacular landscapes in the world, rich in natural wonders and Indigenous culture and history. But it's also long been plagued with racism, bitterness, and politics as twisted as the beckoning canyons. In 2017, en route to the Valley of the Gods with his spouse, a Colorado man closed the gate on a corral. Two weeks later, the couple was facing felony charges. Award-winning journalist Jonathan P. Thompson places the case in its fraught historical context and—alongside personal stories from a life shaped by slickrock and sagebrush—shows why this corner of the western United States has been at the center of the American public lands wars for over a century.

American Constitutional History presents a concise introduction to the constitutional developments that have taken place over the past 225 years, treating trends from history, law, and political science. Presents readers with a brief and accessible introduction to more than two centuries of U.S. constitutional history Explores constitutional history chronologically, breaking U.S. history into five distinct periods Reveals the full sweep of constitutional changes through a focus on issues relating to economic developments, civil rights and civil liberties, and executive power Reflects the evolution of constitutional changes all the way up to the conclusion of the June 2015 Supreme Court term

First published in 1934, this book tells the story of an American farm woman, her husband and family, and vividly describes farm life and farm psychology. "We Sagebrush Folks tells the experiences of a woman of education, refinement, and culture, who went with her husband to plow up wealth in the land under the then new Minidoka Irrigation Project in Southern Idaho. The 'heart of gold' that experience held was the beauty of Idaho, its sunshine, its sky by day and by night, its mountains, its vast stretches of gray-green sagebrush, which she saw transformed into fields and farms, its pure, clear, inspiring, stimulating air—and what all these meant to her, emotionally and spiritually. She writes with intelligence, a notable gift for expression, and a considerable interest in and knowledge of economics. An intimate, colorful portrayal of the daily life of the sagebrush farmers and their families, mercilessly truthful, but written with vivacity, cleverness, and humor, full of anecdotes, tales, and incidents that are often amusing, sometimes tragic, but always told with a keen sense of their dramatic values." (FLORENCE FINCH KELLY, New York Times Book Review)

Seymour Martin Lipset pronounced over a decade ago, "Someone who knows only one country knows no country." It is well established that students learn the intricacies of American politics better when they are presented in a comparative context. In today's globalized society and workforce, it is all the more important for students to understand that the American political system is in many ways the exception and not the rule. Introductory textbooks on American government, however, rarely emphasize in sufficient depth how the United States compares to other political systems. And introductions to comparative politics infrequently situate the United States in their analysis. The American Anomaly systematically analyzes the U.S. political system by way of comparison with other countries, especially other industrialized democracies. It is organized into four sections, respectively covering the constitutional order, governmental institutions, political participation, and public policy. Extended case studies in each chapter draw on all the major regions of the world. Thoroughly revised throughout, the third edition includes: Updates throughout to reflect recent developments, including battles for control of Congress and the White House in 2010 and 2012, the challenges and successes of the Obama presidency, and political developments including the rise of the Tea Party and Occupy Wall Street. The addition of a ready-reference glossary defining key terms, along with a key terms list at the end of each chapter. Updates to examples from other countries, such as changes to the European Union in light of the Eurozone crisis, the weakening of the Mexican state due to surges in drug-related crime, and the growth of China's global role. A substantive update to the domestic policy and foreign policy chapters. A significant update on online/web-based activism, with particular regard to the expanding role of social media. New tables and charts in each chapter. A companion website also offers overview slides, links, and other supporting features.

From Amos 'n' Andy to The Jeffersons to Family Matters to Chappelle's Show, this volume covers it all with entries on all different genres_animation, documentaries, sitcoms, sports, talk shows, and variety shows_and performers such as Muhammad Ali, Louis Armstrong, Bill Cosby, and Oprah Winfrey. Additionally, information can be found on general issues, ranging from African American audiences and stereotypes through the related networks and organizations. This book has hundreds of cross-referenced entries, from A to Z, in the dictionary and a list of acronyms with their corresponding definitions. The extensive chronology shows who did what and when and the introduction traces the often difficult circumstances African American performers faced compared to the more satisfactory present situation. Finally, the bibliography is useful to those readers who want to know more about specific topics or persons.
