desk, the Xbox console in your living room, the Surface Hub, and IoT devices.

*What's New in Visual Studio Tools for  
Universal Windows Apps*

Universal Windows apps are there to allow the same app to be written for Windows 8.1 Store and Windows Phone 8.1 with little code changes. Note that it's not the same as linking a Windows and Phone app in the Store - this can be done in the non-Universal model as well; here I'm referring to actual code sharing, whether the apps will be linked in the Store or not.
