<http://www.cad-schroer.com/>. MPDS, the MEDUSA Plant Design System (since 2006 MPDS4) is a suite of plant engineering applications for 2D/3D layout, design and modelling of process plants, factories or installations. The system's history is closely tied to the very beginnings of mainstream CAD and the research culture fostered by Cambridge University and the UK government as well as the resulting "Cambridge Phenomenon" MPDS was originally
