Today's learners master both basic and advanced skills in Visual Basic for Applications (VBA), the programming language for Microsoft Office, with this essential tool. Albright's VBA FOR MODELERS: DEVELOPING DECISION SUPPORT SYSTEMS WITH MICROSOFT OFFICE EXCEL, 5E teaches how to automate common spreadsheet tasks as well as create the sophisticated management science applications needed in business today. The first half of the book introduces readers to

Download File PDF Vba For Modelers Developing Decision Support Systems With

the fundamentals of VBA for Excel. The second half of the book puts knowledge into action as it illustrates how to automate a number of management science models using VBA. Students learn to develop clean code and user-friendly interfaces for inputs and results. A new section familiarizes readers with PowerPivot and the new Excel Data Model. Novices as well as more experienced professionals will find the skills and background they need to maximize their VBA skills. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book helps students learn to use Visual Basic for Applications (VBA ? a programming environment within Microsoft Office) as a means to automate methods and models and create special applications. With VBA, sophisticated management science techniques work behind a clean and simple interface. Gaining valuable experience, students will develop applications that are user friendly and tailored to a specific problem while the "number crunching" takes place behind the scenes of Microsoft Excel.

Visual Basic Application (VBA) is one of the powerful tools that Microsoft Office Excel can offer you. It is the best when you master both basic and advanced skills of VBA.
