1. REV system (1983 Honda CBR400) Before modern VTEC systems arrived in Honda vehicles, the technology actually had its proverbial Genesis in the 1983 CBR400. Dubbed REV (Revolution Modulated Valve Control), this system can be considered the definitive prototype of VTEC, and was first tested out in this sport bike.

Pure Japanese Muscle: Five Best Honda VTEC Engines of All Time

VTEC (Variable Valve Timing & Lift Electronic Control) is a system developed by Honda to improve the volumetric efficiency of a four-stroke internal combustion engine, resulting in higher performance at high RPM, and lower fuel consumption at low RPM.The VTEC system uses two (or occasionally three) camshaft profiles and hydraulically selects between profiles.

VTEC - Wikipedia

The number in the engine code gives the approximate displacement of the engine. e.g. B18A would have an approximate displacement of 1.8L, H22A1 would have an approximate displacement of 2.2L. Some engines below were available in more than one market. A-series. 84-87 A18A1 Prelude (America) 85-89 A20 Accord carbureted (Europe, America)

The new i-VTEC variable valve technology is what pushes these K series swaps onto the Top 10 Best Honda engine swaps list. Available with 197hp on entry-level 2.0L engines, you can find JDM versions that can exceed 220 horsepower in factory form.

Top 10 Best Honda engine swaps | A Listly List

The following list will provide you the information on whether your car engine is an interference engine or a non-interference engine. An interference engine is one that has insufficient clearance between the valves and pistons if the cam stops turning due to a broken timing belt. The result is usually catastrophic engine failure.

Interference Engines - The Complete List

Replacement engines & transmissions has a warranty of 60 days head and block only. Starting the day when the customers purchase the engine and / or transmission. Performance swaps; Engines and / or transmissions equip. with Vtec, turbo, or supercharged systems has a warranty of 30 days startup head & block coverage only.

JDM Honda Civic 1992-95 D15B Sohc VTEC Engine - JDM of ...

The fifth-gen Prelude's engine was a torque monster by DOHC VTEC standards, cranking out 156 lb-ft along with a healthy 200 hp. But we liked the GS-R's engine better. The 'Lude's 2.2-liter four-cylinder, a.k.a. "H22A4," had a Jekyll and Hyde character, coming on real strong all of a sudden at 5,200 rpm.

Honda 1.8L i-VTEC R18A/R18Z Engine Reviews. By. Jasmine Lee. Honda's 1.8 i-VTEC R18A engine made its European debut in late 2005 under the hood of the 8th generation Civic. This engine receives 140 horsepower and 174 Nm of torque. Although the value is not impressive, it proves sufficient in the C segment hatchback.

Honda 1.8L i-VTEC R18A/R18Z Engine Problems & Reliability

Engine Swap is a conversion upgrade option in Forza Horizon 4 that swaps the engine of a car with a different variant.. An engine swap can significantly increase the Performance Index of a car, but may also have a notable effect on weight distribution and handling. Upgrades from a stock engine or another engine swap do not carry over to a new engine swap.

Forza Horizon 4/Engine Swap | Forza Wiki | Fandom

The system was upgraded to i-VTEC in the early 2000s, which added intake camshaft timing adjustment. VTEC implementation differs in different engine families across the Honda and Acura range, thus the i-VTEC implemented in the current R-series Honda engines, for instance, is different than the i-VTEC system equipped on K series engines.
