Welding is a method of joining metals permanently. It is an ancient method, about 1500 years old. The method used in ancient days was forge or blacksmith welding. One of the methods of classifying welded joints is the method used to effect the joint between metal pieces.

Accordingly the methods are:

HANDBOOK ON WELDING

TECHNIQUES - Indian Railways

Welding, technique used for joining metallic parts usually through the application of heat. This technique was discovered during efforts to manipulate iron into useful shapes. Welded blades were developed in the 1st millennium ce, the most famous being those produced by Arab armourers at Damascus, Syria. The process of carburization of iron to produce hard steel was known at this time, but the
